PROFILE

Computer Science diploma graduate (TUT, 2025) with 9 months of industry experience building and shipping full stack and mobile applications at mLab Southern Africa's CodeTribe Academy, a nationally recognised, competitive work-based programme I was selected for through a four-week bootcamp and panel interview. Proficient in React, React Native, TypeScript, Node.js, and SQL/NoSQL databases. Comfortable owning features end-to-end, from Figma wireframe through to live production deployment. Detail-oriented, proactive under pressure, and motivated to write clean, maintainable code that solves real user problems.

EXPERIENCE

mLab Southern Africa — CodeTribe Academy

07/2025 – 03/2026

Junior Developer Trainee (WIL Placement)

Competitive 9-month work-based programme run by the Innovation Hub x mLab. Selected via 4-week bootcamp and interview. First 6 months (Jul-Dec 2025) fulfilled TUT Work-Integrated Learning (WIL) module.

- Delivered full stack features end-to-end — built and deployed production-ready React and React Native applications including user authentication systems, CRUD operations, real-time search and filter, and dynamic dark/light theme switching
- Integrated REST APIs and managed databases — connected frontends to Node.js/Express backends and configured Supabase, PostgreSQL, and MongoDB environments for live applications
- Shipped to production — deployed multiple applications to Vercel with responsive, cross-device layouts; all projects publicly accessible and actively maintained
- Collaborated using Git workflows — managed feature branches, pull requests, and code reviews in a structured team environment, maintaining code quality under real deadlines
- Translated designs into working UI — worked from Figma wireframes and prototypes to pixel-accurate, responsive React components using Tailwind CSS and custom styling

EDUCATION

Tshwane University of Technology (TUT)

2022 – 2025

Diploma in Computer Science

- Qualification awarded Dec 2025. Graduation ceremony: 28 May 2026. Includes Work-Integrated Learning (WIL) module completed at mLab CodeTribe Academy.

- Best Second-Year Award — recognised for academic excellence among peers

Thase Secondary School
National Senior Certificate (Matric)

2017 – 2021

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript,
Java

Frontend

React, HTML5, CSS3, Tailwind
CSS, Responsive Design

Mobile

React Native

Backend

Node.js, Express.js, REST APIs

Databases

PostgreSQL, MongoDB, SQL,
Supabase

UI/UX

Figma, Wireframing,
Prototyping, User Research

Tools & Workflow

Git, GitHub, VS Code, Vercel

Frontend

React, HTML, CSS, Tailwind
CSS

PROJECTS

E-Commerce

React · Node.js · MongoDB · Vercel

e-commerce-omega-beige.vercel.app 

- Built a full-stack e-commerce platform featuring secure user authentication and dynamic product management.
- Developed a scalable Node.js and MongoDB backend paired with a highly responsive storefront UI.

Thusa AI Chatbot (TUT Chatbot)

React · TypeScript · AI Integration · Vercel

thusa-tut-ai-chatbot.vercel.app 

- Engineered an AI-powered digital assistant to automate context-aware student support and query resolution.
- Built an intuitive, real-time messaging interface optimized for fast rendering and high accessibility.

ClinicSync

React · TypeScript · Shadcn UI · Tailwind CSS

<https://clinic-sync-u4yx-7uipyal80-musikis-projects-3af67fec.vercel.app/> 

- Designed a minimalist medical appointment management system and comprehensive administrative dashboard.
- Implemented a highly responsive, modular frontend architecture utilizing Shadcn UI components.

Musiki CMS

React · TypeScript · Tailwind CSS · Vercel

satumo-cms.vercel.app 

- Developed a secure Content Management System to facilitate business infrastructure and client content management.
- Created a clean, monochromatic interface focused on high-fidelity data presentation and administrative usability.
